

CONTRACT INFORMATION & CLIENT REFERENCES

Past Contracts

THE GEO GROUP HAS NEVER HAD A CONTRACT TERMINATED FOR CAUSE.

The **Monroe County Jail** was a five-year contract with the County. Due to staffing requirements of the State of Florida, which were not part of contract negotiations, the contract was discontinued by mutual agreement after one year of operation. Considerable improvements in the physical structure, training of staff and operations were made in that one year along with the elimination of the majority of state compliance issues. The contact person for the county would be Capt. Charles (Steve) Casey at the Monroe County Sheriff's Office who was the County liaison/monitor during the operation period. His phone number is (305) 292-7090.

The **Queens New York INS** facility was a five year contract which was extended for an additional six months. At that time the contract expired. The decision not to continue was based on the INS' request for site relocation and expansion in 1995-1996. Roger Fregeau, Chief of Contracting for the Immigration and Naturalization Service, can be contacted at (802) 660-1134.

Our contract with the **City of San Diego** commenced on May 22, 1992 and was for an original five (5) year term; it was extended for an additional five years with a 90-day termination period based on the knowledge that the County of San Diego would be requesting the leased property on which the facility was sited to be returned to them in the near future. The contract was extended in May 1997 based on the knowledge that there would be a termination in the next year or two. The last day of the contract was May 26, 1998. A smooth transition was concluded on that date with the County of San Diego now in control of the property and the facility. The change was necessitated by the building of additional facilities by the County and the City.

The Central Texas Detention Facility in San Antonio, Texas accepts out-of-state inmates for client agencies for varying contract terms. Three short-term contracts at this facility are not in place at this time. A contract with the **Bexar County Juvenile Probation Department** from April 1995 through August 1997 was designed as a short term contract, extended several months, to accommodate the County during a period of construction of new juvenile beds. A second contract for a portion of the Central Texas Detention Facility (CTDF) was between the **New Mexico Corrections Department and Bexar County** for the emergency housing at the CPDF for New Mexico Inmates. This usage extended from June 1996 through June 1997. A

third contract for a portion of the CTDF was between the **Oklahoma Department of Corrections and Bexar County**, also for the emergency housing of Oklahoma Inmates. This usage extended from December 14, 1995 through September 11, 1998.

The five year operational services contract with Travis County, Texas for the **Travis County Community Justice Center** was discontinued by agreement between The GEO Group, Travis County and the Texas Department of Criminal Justice (TDCJ) to allow operation to commence by the TDCJ. Transition of management from The GEO Group to the TDCJ was accomplished in a cooperative and professional fashion on November 8, 1999. In order to ensure a proper transfer, The GEO Group senior staff remained at the facility, at The GEO Group's cost, after the transition date to provide assistance to the new staff.

An award for the design, finance and management of a 1000-bed medium security facility located in **Charlotte County, Virginia** was announced on June 5, 1996. During extended negotiations, the population needs of the State of Virginia changed with the result that a Memorandum of Understanding was signed by the Virginia Department of Corrections, The GEO Group Corporation, the Town of Drakes Branch, Virginia and the Industrial Development Authority of Charlotte County, Virginia. This Memorandum commits all parties to fund and site a facility in Charlotte County, Virginia based on the proposal and the ensuing agreements.

Our contract with the Louisiana Department of Public Safety and Corrections was for the operation of a 276-bed male juvenile facility in **Jena, Louisiana**. The GEO Group gave notice to the State of Louisiana of its intention to convert the use of the facility to other inmate uses. As of May 18, 2000, the facility no longer houses Louisiana juveniles under the referenced contract.

In 1996, GEO was awarded a contract by the Arkansas Department of Corrections for the design, construction, operation and management of the **Scott Grimes Correctional Facility** for young adult males and the **Ronald McPherson Correctional Facility** for adult females, located adjacent to each other in Newport, Arkansas. The facilities opened on July 1, 1997. The initial contract period was for two years and was extended for two additional years. It was mutually agreed by both parties not to further renew the contract after June 30, 2001. The GEO Group worked closely

CONTRACT INFORMATION & CLIENT REFERENCES

Past Contracts

with the Arkansas DOC to ensure a smooth transition with no disruption in the operation of the facilities.

In September 1999, The GEO Group entered into an agreement with the **Florida Department of Children and Families (DCF)** for the temporary housing of detainees under the “**Jimmy Ryce Involuntary Civil Commitment for Sexually Violent Predators**” at South Bay Correctional Facility in South Bay, Florida. Upon completion of its new facility, the Department commenced a phase out of the temporary operation and transfer of the inmates. The contract with the agency expired May 31, 2002.

In March 1997, The GEO Group entered into a Management Services Agreement with the Commonwealth of Puerto Rico to operate an adult male protective custody population at the **Bayamón Correctional Facility** in Bayamón, Puerto Rico. The GEO Group had earlier entered in an agreement to design and build the facility for the Commonwealth. The initial contract period was for five years. Due to budget constraints, the Administración de Corrección did not have funds available to them for private corrections contracts and opted not to renew The GEO Group's contract. It was mutually agreed by both parties to enter into a transition period in April 2002 until June 23, 2002. GEO has worked closely with the Puerto Rico Administración de Corrección to ensure a smooth transition with no disruption in the operation of the facility.

In September 2002, the Australian Department of Immigration & Multicultural & Indigenous Affairs (DIMIA) authorized the opening of the 1200-bed Baxter Immigration Detention Centre near Port Augusta, South Australia whilst, at the same time, closing the 850-bed **Curtin Immigration Reception & Processing Centre** in Derby, Western Australia. Baxter is a new facility developed to house illegal immigrants from the temporary facility at Curtin.

Australian Department of Immigration & Multicultural & Indigenous Affairs (DIMIA) closed the **Woomera Immigration Reception & Processing Centre** in Woomera, South Australia pursuant to the pending transfer of operations to another contractor in October 2003. This change in operators was awarded following a competitive bid process. Subsequent DIMIA facility closures included **Baxter** in South Australia, **Christmas Island** in the South Pacific, **Maribyrnong** in Victoria, **Perth and Port Hedland** in Western Australia, and finally **Villawood** in New South Wales in February 2004.

On June 13, 2003, The GEO Group successfully completed the sale of its one-half interest in its **United Kingdom (UK) joint venture**. The GEO Group sold its 50 percent joint venture interest to its partner, Serco Investments Limited. This transaction was the result of an agreement between The GEO Group and Serco reached in May 2003. The agreement settled an ongoing dispute which had arisen when Serco claimed to have the right to acquire The GEO Group's interest in the joint venture as a result of the merger between The GEO Group's former parent company, The Wackenhut Corporation, and Group 4 Falck in May 2002. The transaction was completed on July 2, 2003.

On December 31, 2003, the **McFarland Medium Community Correctional Facility** in McFarland, California was closed by the client, the California Department of Corrections, at the expiration of the contract. **It was reactivated on January 10, 2005 with the signing of a new contract with the CDC.**

The GEO Group designed, constructed and subsequently operated the **John R. Lindsey State Jail** in Jacksboro, Texas since September 1995 and the **Willacy State Jail** in Raymondville since January 1996. On January 16, 2004, following a competitive rebid, operations of these facilities were awarded to another contractor.

The New Zealand Department of Corrections selected GEO Group New Zealand to operate the **Auckland Central Remand Prison** in May 1999. The 381-bed adult male prison, which also addressed the needs of the inmates of the Maori and Pacific Island communities and those with special needs, opened in July 2000. On July 12, 2005, GEO handed the contract back to the public sector. This decision was the result of a previous election promise that correctional facilities would be managed by the government.

No longer having a need for the beds under contract with the **Queens Private Correctional Facility** in Queens, New York City, the Bureau of Immigration and Customs Enforcement (ICE) transferred its contract to the Office of the Federal Detention Trustee (OFDT) on June 30, 2005. GEO now manages and operates the facility on behalf of the US Marshals Service.

The GEO group was awarded a contract by the Texas Department of Criminal Justice on January 1, 1996 to manage the **Kyle Correctional Facility**. The contract was extended until August 8, 2000 when GEO successfully won a competitive re-bid. The new contract was awarded August 9, 2000 and subsequently

CONTRACT INFORMATION & CLIENT REFERENCES

Past Contracts

extended until August 31, 2005. Following a competitive re-bid, operations of this facility was awarded to another contractor.

The **Michigan Youth Correctional Facility (MYCF)** was designed, financed, constructed and operated by GEO following a competitive procurement issued by the state in 1997. Two agreements were entered into between GEO and the State of Michigan, a 20-year lease (subject to two 5-year extensions) and a 4-year operating agreement (renewed for a second 4-year term in 2003). The MYCF operating agreement was terminated by the Department of Corrections effective September 30, 2005. Following the Governor's line item veto of legislative funding for the continued lease and operation of the facility, GEO received a 60-day notice of lease termination effective December 2, 2005.

On December 31, 1996 the Broward County Sheriff's Office (BSO) awarded GEO a contract with unlimited two-year options for the provision of a county work release facility for 300 county offenders. The **Broward Transition Center** received its first residents on February 16, 1998. Subsequently, in October 2002, the contract was modified to 50 county beds and was renewed through 09/30/06.

A contract with ICE to provide a transition center comprised of 150 beds for female detainees (asylum seekers) was awarded on August 8, 2002 and extended to September 30, 2003. Initial intake began August 26, 2002. A new contract was awarded in July 2003 and extends for a five-year period beginning October 1, 2003 with (4) one-year options, expiring 09/30/08. This contract increased services to provide for 200 female residents with an option to expand by an additional 50 at ICE's request. The current contract also permits for the housing of non-criminal male detainees (asylum seekers).

In December 2005, as a result of the impending increase in the ICE population, design capacity increased by 150 beds, bringing the total to 450 beds: 400 to house ICE detainees and 50 to house BSO inmates. On February 1, 2006 the contract with the BSO

was terminated by mutual agreement in order to allow the entire facility to be utilized by ICE.

Newly Acquired CSC Facilities:

During the past 5 years, the only contracts that were cancelled or terminated prior to its scheduled expiration by a party other than CSC are the following:

- **Crowley County Correctional Facility:** the Crowley Management subcontract, dated December 15, 1998, by and between Crowley Correctional Services, LLC and Correctional Services Corporation.
- **Central Oklahoma Correctional Facility:** Management Agreement, dated June 5, 1998, by and between McLoud Correctional Services, LLC and Correctional Services Corporation.

These contracts, for the management of the Crowley County Correctional Facility and the Central Oklahoma Correctional Facility were terminated, effective as of December 20, 2000, following the decision of Dominion, Inc., the owner of the facilities, to terminate the contracts as a result of their desire to take over operation of those facilities. CSC successfully operated these facilities for two years, bringing innovative programming to the offenders in our care and custody. The contract termination was not the result of CSC's failure to manage and operate the facilities under the terms and conditions of the contracts. For more information, Calvin Burgess, President of Dominion, Inc., can be reached at 405-348-9852.

The GEO Group, Inc. acquired the contract between **Grenada County** and the Correctional Services Corporation November 4, 2005 with the acquisition of CSC. Having operated the contract for eight months, GEO determined the contract was no longer financially viable to the company. The contract was terminated on November 3, 2006.
